CAPACITY: 130gal

EMPTY WEIGHT: 150lbs

WEIGHT W/WATER: 1200lbs

COLORS: Tan Granite
Gray Granite

The 6 foot Urban Terrorism Barricade has been designed to help restrict the ability of a terrorist to drive their vehicle from the parking space into a building or restricted area. Placed directly in front of the parking space and stand in an imposing 36" tall, this product creates a formidable obstacle to overcome.

Molded in Tan or Gray Granite as the base color and accentuated with flowers or plants, creates a very eye pleasing vehicle barricade that has the ability to help stop the intruder, while still allowing the use of the sidewalk.

Great for any place the auto can be pulled right up next to the building with only a 4 foot sidewalk as a stand-off. An excellent addition to other Urban Terrorism products already in service at various facilities.
